Drawings

	File	What it is	Size
7	ID-01_furnished_plan.pdf	Furnished plan	0.2 MB
8	ID-02_zoning_plan.pdf	Zoning plan	0.1 MB
9	ID-03_ceiling_lighting_plan.pdf	Ceiling and lighting plan	0.2 MB
10	ID-04_power_data_fire_plan.pdf	Power, data and fire plan	0.2 MB

Online and source files

	Link	What it is	Size
11	stage2-office-virtual-tour ... workers.dev .../present (launcher: videos and PDFs)	Live website (GPT), backup only: needs internet; rooms work; in its guided tour the tour bar covers the room card (not in the Mac package)	-
12	Final_Office_Interior.blend	Editable Blender model (approved design, unchanged)	41.6 MB
13	Final_Office_Interior_web_realism.glb	Web 3D model with baked Cycles light	19.5 MB
14	film 720p · tour 720p	Light copies of both videos (phones, e-mail)	16.9 / 26.0 MB
15	STAGE_II_CLIENT_PRESENTATION_FINAL	All of the above on GitHub, with notes on verification and limitations	-

Run-of-Show (20-25 minutes)

Open everything before the client arrives: videos in QuickTime, PDFs in Preview, the 3D tour in Firefox (help card closed). Switch with Cmd + Tab.

Time	Step	Show	Say
0:00	**Cinematic introduction**	File 2, full screen	"The proposed ground floor, rendered from the project's 3D model."
1:30	**Architectural vision**	Pitch PDF slides 1-3	Project vision and the six design principles.
3:30	**Floor plan and zoning**	Pitch slides 4-5 or ID-02 zoning plan	Arrival, experience and meeting, executive, workplace, design development, support zones.
6:00	**Complete 3D model**	3D tour: Overview → Isometric, Ceilings off, drag to turn	"The whole floor, furnished, in real-time 3D."
7:30	**Interactive tour**	Gold **Guided tour** button. Space = pause, → next, ← back	16 stops through the 3D model; pause for questions.
8:30	**Reception**	Rooms → Reception & visitor waiting; drag to look around	Fluted-oak counter, backlit logo wall, waiting lounge.
10:00	**Experience Centre**	Rooms → Experience centre	Where buyers see the product.
11:30	**Boardroom**	Rooms → Boardroom	Long table, acoustic rafts, glazed wall to the experience centre.
13:00	**Executive offices**	Rooms → Managing Director, Director, Executive reception	Executive suite with its own reception.
14:30	**Merchandising, Design Studio**	Rooms → Merchandising, Global Design Studio; optional Walk (W A S D)	Open workplaces; design development wing.
16:30	**Photoreal finishes**	Render book PDF, or the room card's **Photoreal render** button	"Path-traced from the same model: the closest view of the finishes."
18:30	**Materials and lighting**	Pitch slides 14-15; ID-03 ceiling and lighting plan	Warm, durable palette; lighting concept.
20:00	**Implementation**	Pitch slide 17	To confirm before construction: site survey, structure, MEP, fire, approvals.
21:30	**Approval request**	Pitch slides 16 and 18	Ask for approval of the concept and the layout.
23:00	Optional recap	File 3 (2:01 tour)	-

Mac + TV / projector checklist

- Power adapter on; Focus / Do Not Disturb on; other apps closed.
- Connect HDMI / USB-C. System Settings → Displays → **Mirror**; resolution "Default for display".
- Files 1-6 in Downloads; ZIP unzipped (keep the *renders* folder next to the HTML).
- Open the 3D tour in Firefox, close the help card, press **F** for full screen, try the Guided tour for 10 s, press **Esc**.
- Open both videos (QuickTime) and the PDFs (Preview).
- Display quality (**?** button): High; choose Balanced if movement is not smooth.
- The videos have no sound (silent track): no audio setup needed.
- Trackpad: drag to turn, Shift + drag to move, pinch to zoom. Esc = overview.

Fallback

- **No internet:** nothing changes; all files are on the Mac.
- **3D tour does not start:** Firefox → Settings → General → Performance → "Use recommended performance settings", restart; or open the same file in Chrome or Safari.
- **3D tour slow:** ? → Display quality → Balanced or Low.
- **3D tour fails:** play the 2:01 tour video and use the render book.
- **Video does not play:** drag it into Firefox or Chrome, or use the 720p copy.
- **Projector picture cut off:** Displays → "Default for display" or 1920 × 1080.
- **Live website:** backup only (needs internet).

> Tested in Firefox 159 and Chromium (cloud machine, software GPU): 3D tour 25/25 checks, no overlapping panels at 7 Mac window sizes; videos decoded without errors or black frames. Not tested: macOS / Safari. Open the files once on the Mac before the meeting.
